Bad Day Kit – One sheet of 8 ½ X 11 will make one

Pictures I took do not show the hole cut out.

1) 4 ½ X 11

Score at 10 ½ on long side (to make a ½' score)

Flip to other end of long side (½' score line will be on right side of where you are scoring) – Score at 2 ¼, 6 3/8, and 7 7/8

Use a 1 3/8 circle punch and punch in center of 4 ½ and between ½ score and 2 ¼ score lines. Fold long end up and two shorter ends back (to fit over the top of a soda/water bottle)

A rough idea of what it will look like before folding (not exact)

			This is where hole will go	

2) Cut two of the following: 3 1/8 X 2 ½

Score ½ on each end with the 3 1/8 side up and down.

Fold the two ½ end pieces in and glue or sticky tape (best) to inside of the "box" to form the two sides.

A rough idea of what it will look like before folding (not exact)

Piece is 3 1/8 tall

1/2	1 1/2	1/2

Fold

3) 3 X 4 ¾

Score each long side (4 ¾) at 4 1/8 and 3 ½

Score on short side (3) at 2 3/8

Fold on all score lines and cut each of the long side score lines up to the score line.

A rough idea of what it will look like before folding (not exact)

		Do not cut on this row at all.		
		Cut all Up Down lines from bottom to 1st score line		

Fold all score lines to form a box without a back.

This is glued or Sticky Taped (best) to front of hanging box to hold additional treats, etc.
